School Directors' Report

A joint meeting of the State Board of Education and the school directors of the state was held in Burlington, Vt., December 18. The purpose of the conference was to consider increased salaries for teachers. About two hundred and fifty school directors were in attendance.

The following resolutions were unanimously adopted:

1. Whereas the salaries of teachers have been depreciated more than one-half by reason of the decline in the purchasing value of the dollar and

2. The larger wages and opportunities offered by industries have diverted many ambitious young persons from the teaching profession and have also attracted many who were employed in the schools so that there now exists a great scarcity of teachers and . .

3. The welfare of the state and the preservation of Americanization depends in a large measure upon the character of our schools and

4. As there is need that the teachers be assisted in their worthy efforts to reach a higher degree of efficiency

Be it resolved:

1. That a real crisis exists in our public school system that threatens a breakdown of our schools.

2. That it is imperative that effective measures be promptly taken to prevent disaster.

3. That it is essential to provide salaries for our teachers which will decently support them, relieve their unrest and encourage their continuing in the profession of teaching and promote a respect for the calling that will assure a continued supply of capable teachers for the future.

4. That there should be a general increase in salaries of teachers throughout the state of at least 50 per cent of

salaries as they existed in 1916 before the United States entered the war.

While the members of the Newfane School Board were not permitted to attend the above-mentioned meeting, the situation in Newfane is the common situation found all over the state.

The teachers of Newfane receive a substantial increase in salary over that paid in 1916; still if the present efficiency of the schools of this town is to be continued, we must be ready to pay a salary sufficient to secure the best teachers available. In order to do this it will be necessary for the board to receive at least 100 per cent on the grand list.

We are fortunate that most of the repairs on school-houses were done in the years of cheaper prices and the school property of the town is in excellent condition. Therefore the extra per cent asked for should keep us from deficit and continue the high grade now done in the schools of this town.

C. L. HESCOCK,

P. C. THAYER,

H. J. HEATH,

School Directors.

Newfane, Vt., February 1, 1920.

We, the undersigned, certify that we have examined the orders and accounts of the School Directors and find them correct.

L. H. HIGGINS,

Auditors.

Health Officer's Report

To the Voters of the Towns in Sanitary District No. 10:

Because this work has been in the hands of the present officials for only a part of the current year, it is obviously impossible to make a detailed report, as applied to individual towns, at this time.

There are, however, matters which are of mutual interest which it seems advisable to present briefly, for your consideration.

Medical Inspection of Schools: Under the new law, if a town votes for medical inspection of schools, the work is done by the state, under the direction of the District Health Officer, free of all expense to the towns. Towns are required to furnish record cards, but the cost of these is small. Every child in every school is examined each year for physical defects, such as defective eyesight or hearing, adenoids, diseased tonsils, defective teeth, disease of the lungs or heart, spinal curvature, etc. No treatment is given, but an accurate card record is kept of each case, and the parents are urged, under a follow-up method, to have the defects remedied. Something may be done later to assist parents who are financially unable to have the defects remedied. The importance of this work is attested by the fact that over 38 per cent of the young men who tried to enlist or were drafted in the late war were found physically unfit for military duty. The government authorities estimate that the vast majority of these defects, had they been known to exist, could have been corrected in childhood. The percentage of rejection of young men from the cities of Boston and New York, where medical inspection of schools has been in vogue for years, was much below that of young men from Vermont, who ought by nature of their environment, to have been physically superior in every way. It is hoped and confidently expected that practically every town in Vermont will vote, as many have already, for this im-

provement. The children of to-day will be the men and women of to-morrow, and we are under a moral obligation to our country to endeavor to have them, physically, our superiors.

Schoolhouses: I have to call to your attention the fact that very many of the rural schoolhouses are not fit for human occupation, even under the most favorable conditions. The buildings are often unattractive without and within; there are no playgrounds; they are usually well surrounded by woods with not a house in sight; the out-buildings are usually examples of everything that they should not be, the desirable features of cleanliness and privacy being entirely lacking; heating is of the primitive type; lighting inadequate and poorly arranged; while ventilation, except the natural ingress about loose windows, loose doors and through broken panes, which is haphazard rather than wise, has not been provided for. Children from homes which are pleasant and agreeable, in which cleanliness and comfort are the rule, who are required by us to spend twenty-five hours each week at all seasons of the year, in such a building as I have described, have a right to question the sincerity of our interest in their welfare. Statements from teachers, too, give me reason to state that conditions must be improved, for many of them will not return to buildings of this kind.

Liberal state aid is available for this kind of work, but the initiative must come from the towns.

I wish to take this opportunity to thank the public for the splendid spirit of co-operation that they have shown in the interest of the welfare of their communities, and to assure them that it is only through this co-operation that we can establish such conditions as we wish to, and should, have.

Respectfully submitted,

C. S. LEACH, M. D.,
District Health Officer.

Births in Newfane in 1919

- Jan. 29. A daughter to Frank W. and May C. Farnum.
- Feb. 4. A son to Clarence M. and Fannie E. Struthers.
 6. A daughter to Walter J. and Ruth H. Wright.
 21. A daughter to Louie C. and Rena B. Fletcher.
- Mar. 17. A daughter to Nathaniel B. and Mattie E. Wilder.
 18. A son to Merton C. and Edith A. Stone.
 22. A daughter to Burton C. and Gertrude F. Halladay.
 25. A daughter to Porter C. and Edith M. Thayer.
- Apr. 1. A daughter to Frank N. and May E. Crossman.
